

Suffolk County Community College's Radio and Television Production curriculum is a two-year program leading to an associate degree in applied science. It is designed for students who plan on careers in broadcast operations, broadcast sales, engineering management, on-air reporting, and video editing, to name a few.

The program has articulation agreements allowing for seamless transfers with other local and regional colleges. With state-of-the-art broadcasting facilities and significant relationships with metro-area television stations and production companies, Suffolk's program stresses active learning and puts students into real-life situations. It's an approach that helps to set the program apart from others.

Suffolk is home to the most up-to-date technology

Thirteen non-linear video editing stations

A high-definition remote va with capacity to use up to five cameras on location w graphics, slow-motion vide replay, and live streaming o sports and special events

A wide range of cameras and other facilities for field production

A 100 percent "tapeless" TV facility featuring multiple cameras, a camera jib, a multisource HD recording capability and an advanced server for studio productions with location shooting on hard drives

Three fully digital radio studios – each with multitrack non-linear audio editing

"With state-of-the-art facilities, and passionate instructors, the Radio and Television Production Program at Suffolk is one of a kind. I credit a great deal of my success to my formative years at Suffolk."

– Jason Kornweiss, Class of '94
Vice President, Broadcast Operations, NBC Universal

"Suffolk students make an immediate impact in today's business. Their education, training, and professionalism will place them at the top of any hiring list!"

– Bryan Butler, Class of '94
Director of Production Operations, MSG Varsity

Over the years, Suffolk has produced upwards of a half dozen network vice presidents, several national network personalities, and a long list of Emmy Award winners. While there are too many to name, a few notable alumni from the program include:

Annemarie Bain, Producer/Editor, "The Bill Cunningham Show"
Keith Dinielli, Emmy Award-winning Producer, "The Voice"
Vinnie Fusco, Vice President, NBC Talk Television
Mickey O'Malley, Video Editor, NBC Sports Networks
Diana Modica, Emmy Award-winning Video Editor, CBS-TV
Jill Nicolini, On-air Personality, WCBS-TV
Debra O'Connell, Vice President for Marketing, ABC-TV
Bob Palladino, Senior Audio Engineer, "Saturday Night Live"
Naadine Sardi, Technical Director, "Fox 5 TV News"
Gary Simmons, Peabody Award Winner, "Dateline NBC"
Wendy Wild, On-air Personality, WKTU-FM
