REQUEST FOR DEPENDENCY OVERRIDE 2018-19

PLEASE CAREFULLY READ THE FOLLOWING INFORMATION BEFORE COMPLETING REVERSE SIDE . . .

Financial aid regulations maintain that the family (student and parents) must assume the primary responsibility for meeting the student's educational costs for the purpose of attending college. Therefore, parental information is normally required in order to determine a student's eligibility for federal financial assistance.

The Department of Education has specifically stated that the following four conditions "individually or in combination with one another, do not qualify as unusual circumstances and therefore would not merit a dependency override":

1. Parents refusing to contribute to the student's education
2. Parents unwilling to provide information on the application or for verification
3. Parents not claiming the students as a dependent for income tax purposes
4. Student demonstrating total self-sufficiency

Only in **EXTREMELY UNUSUAL documented** situations can parental information be waived, such as in cases where the student has been forced from the family home as a result of parental abuse (physical or mental), estrangement, abandonment, drug/alcohol abuse, mental incapacity or another such situation beyond the student's control. In cases such as these, the likelihood that the student would return to the parent(s) household and/or rely upon the parents for financial support would be very low.

Please carefully review the reverse for the required documents you must submit for consideration of a Dependency Override. If for any reason you cannot provide all requested documentation, you must explain in detail the reason(s).

For additional information, you may contact the Financial Aid Office.
