An Articulation Agreement between Manhattan College
Schools of Arts, Science, Engineering, Business, and Education
and Suffolk County Community College

This agreement between Suffolk County Community College and Manhattan College is meant to facilitate the transfer of students of Suffolk County Community College into the appropriate baccalaureate programs of Manhattan College.

Students of Suffolk County Community College who earn the Associate in Arts or Associate in Science degrees with a grade point average of 2.5 or better and who wish to remain in the same related baccalaureate program at Manhattan College would be admitted with junior status and would be required to complete any remaining degree requirements for their bachelor's degree. These students ought to be able to complete their baccalaureate at Manhattan College within two years of study.

Students missing any prerequisite course for one or more of the advanced courses at Manhattan College will be required to complete the prerequisite before taking the advanced course or courses. A grade of C or better will be required for transfer credit.

Students of Suffolk County Community College who do not qualify for admission under the above conditions may be considered for admission to Manhattan College on an ad hoc basis. Generally speaking, their transcripts will be reviewed seeking a minimum GPA of 2.5 or better and courses will be reviewed on a course by course comparison with the Manhattan College curriculum to which the student is applying. All transfer students from Suffolk County Community College will have all the benefits of academic standing and financial aid consideration as any other full time student at Manhattan College.

Once approved by both Colleges, this agreement is subject to review upon receipt of a written request from either party to the agreement. The agreement may be terminated by written notice served by either party six months before final termination. In that period, students may continue to fully benefit from the terms of this agreement.

Suffolk County Community College and Manhattan College agree to encourage qualified students to participate in the agreement by providing academic advising through the Dean's offices at Manhattan College and the appropriate counseling services of Suffolk County Community College. General information and other assistance will be given by both parties to assure an easy transition between the Colleges.

This agreement supersedes any previous articulation agreement which the two Colleges may have entered into and is made by both institutions in an effort to assist students in the college transfer process while at the same time fully respecting the academic integrity and independence of the participating institutions.
