

# Suffolk County Community College **2016 – 2017 Operational Plan**

Office of Planning and Institutional Effectiveness  
**August 2017, Final Annual Update**

## Suffolk County Community College 2016 -- 2017 Operational Plan

As outlined in the *Comprehensive Assessment Plan for Institutional Effectiveness (CAPIE)*, each year the President of the College charges his Cabinet to submit divisional/campus operational plans. These plans, when taken together, form the College's Annual Operational Plan. In creating the plan, the responsible executives tie action items or initiatives to the College's Institutional Goals, which are central to our Strategic Plan, to Middle States Standards, to the President's Annual Goals, and new this year, to Achieving the Dream Institutional Capacities. Tying the plans to our Institutional Goals allows strategic focus on achieving the College's Mission:

*Suffolk County Community College promotes intellectual discovery, physical development, social and ethical awareness, and economic opportunities for all through an education that transforms lives, builds communities, and improves society.*

The Plan, once reviewed and approved by the President, is reviewed by the Strategic Planning Council. This review serves as an accountability measure in the process, and the Council may make suggestions regarding the planning process (timelines, templates, communication, etc.).

Three times each year, a progress report is compiled – after the fall semester, after the spring semester, and the final report in August.

**Institutional Goals:** 1. Student Success; 2. Community Development/Societal Improvement; 3. Access and Affordability; 4. Institutional Effectiveness; 5. Communication; and 6. Diversity.

**Middle States Standards:** 1. Mission and Goals; 2. Ethics and Integrity; 3. Design and Delivery of the Student Learning Experience; 4. Support of the Student Experience; 5. Educational Effectiveness Assessment; 6. Planning, resources, and Institutional improvement; and 7. Governance, Leadership, and Administration.

**Achieving the Dream Capacities:** Student-Centered Focus; 1. Leadership and Vision; 2. Data and Technology; 3. Equity; 4. Teaching and Learning; 5. Engagement and Communication; 6. Strategy and Planning; and 7. Policies and Practices.

**2016-2017 President's Goals:**

*Goal 1:* With the appointment of the new Senior Associate Vice President of Workforce Development, Community Partnerships, and STEM CTE, the College will review, assess and make recommendations for the seamless alignment of all programs within that area. (Workforce, Community, STEM CTE)

*Goal 2:* Through the implementation of action items linked to our comprehensive Enrollment Management and Student Engagement plans, we will work to stabilize College enrollment and grow student retention. (Enrollment/Engagement)

*Goal 3:* In 2016-2017 I will work even more closely with the Foundation to build on the successes we achieved last year and the new culture of support for the College we have established to raise even more funds for student scholarships and innovative programs. (Foundation)

*Goal 4:* I will continue to personally direct and support the efforts of the Middle States Self-Study committees as they gather evidence of our compliance with the Middle States Commission on Higher Education new Standards to generate an exceptional Self-Study report for submission to the Commission. (Self-Study)

*Goal 5:* Middle States and SUNY officials have told us we need to be more outspoken about our successes, and so the College will utilize its work on new metrics to gauge effectiveness and engage new opportunities to “tell our story” and communicate the successes of community colleges and Suffolk, in particular. (Communicate Success)

*Goal 6:* Use Achieving the Dream and its focus on “equity” to strengthen our efforts regarding the College's Diversity goal. (Diversity)

The charts on the following pages indicate the percent of actions/initiatives addressing each focus area in the Goals, Standards, Capacities, and/or President's Goals.

**Final Progress Report:** 68 action items/initiatives were submitted, some with multiple phases. The status of every action item is reported below. Of those action items, 46 were completed in full; 14 were part of a multi-year initiative, but had met the target for the phase; 7 were delayed, but are still “in progress”; and one was halted due to the redesign of the College website. Eighty-eight percent (88%) of actions were completed as planned. Many of those actions that are a phase of a larger initiative, or those delayed, are elements in the 2017-2018 Operational Plan, or the updated date of completion appears in the progress report below. For a full picture of integrated planning at Suffolk County Community College, this Progress Report should be read in tandem with the Annual Report of Institutional Effectiveness, which will be published in January 2018 and will provide further updates.

### Institutional Goals (IGs)

IG 1. Student Success

IG 2. Community Development/  
Societal Improvement

IG 3. Access and Affordability

7. Policy and Practice	<b>30.00%</b>	18

### Middle States Standards

Percentage of Actions/Initiatives addressing each Middle States Standard		
Standard I. Mission and Goals	<b>26.32%</b>	15
Standard II. Ethics and Integrity	<b>14.04%</b>	8
Standard III. Design and Delivery of the Student Learning Experience	<b>36.84%</b>	21
Standard IV. Support of the Student Experience	<b>52.63%</b>	30
Standard V. Educational Effectiveness Assessment	<b>17.54%</b>	10
Standard VI. Planning, Resources, and Institutional Improvement	<b>38.60%</b>	22
Standard VII. Governance, Leadership, and Administration	<b>14.04%</b>	8

### President's Goals

Actions/Initiatives addressing President’s Annual Goals:		
Goal 1: With the appointment of the new Senior Associate Vice President of Workforce Development, Community Partnerships, and STEM CTE, the College will review, assess and make recommendations for the seamless alignment of all programs within that area.	<b>12.28%</b>	7
Goal 2: Through the implementation of action items linked to our comprehensive Enrollment Management and Student Engagement plans, we will work to stabilize College enrollment and grow student retention.	<b>49.12%</b>	28
Goal 3: In 2016-2017 I will work even more closely with the Foundation to build on the successes we achieved last year and the new culture of support for the College we have established to raise even more funds for student scholarships and innovative programs.	<b>8.77%</b>	5
Goal 4: I will continue to personally direct and support the efforts of the Middle States Self-Study committees as they gather evidence of our compliance with the Middle States Commission on Higher Education new Standards to generate an exceptional Self-Study report for submission to the Commission.	<b>22.81%</b>	13
Goal 5: Middle States and SUNY officials have told us we need to be more outspoken about our successes, and so the College will utilize its work on new metrics to gauge effectiveness and engage new opportunities to “tell our story” and communicate the successes of community colleges and Suffolk, in particular.	<b>36.84%</b>	21
Goal 6: Use Achieving the Dream and its focus on “equity” to strengthen our efforts regarding the College’s Diversity goal.	<b>45.81%</b>	26

Division/ Campus	Responsible Executive(s)	Activity, initiative, or action developed to assist the College in addressing one or more of its Institutional Goals.	Lead Responsibility	Criteria for Success	Progress/Status January 2017	Progress/Status May 2017	Progress/Status August 2017
Ammerman Campus	Executive Dean, Associate Dean of Student Affairs	Students with Disabilities Enrollment Project. The Admissions and Disability Services Offices will work together to improve communication and the flow of information between students who request disability services on their initial admissions application and the disability services office. This pilot project will be an attempt to test a new system that will seek to “close the gap” between the initial admissions application and the forwarding of the student’s information to the DS office.	Associate Dean of Student Affairs, Director of Disability Services	A significant increase in the communication between the pilot project high schools and the Ammerman Campus Office of Disability Services.	Progress as of January is that on-sites were completed at our three partner schools (East Islip, Connetquot and Pat/Med). 20 students self- identified on their application as being students with disabilities or interested in Disability Services. 2 of those students had already sent in documentation to Disability Services. The other 18 students were mailed home DS brochures with information on how to complete registration. At this time, Disabilities Services Dept is monitoring the 20 students to see if and when they submit documentation in hopes they will submit the required documentation prior to the start of placement testing.	As of May, 11 students submitted all required documentation to Disability Services and had their files reviewed. The information has since been sent to Advising and Testing to have placement tests scheduled. 2 students have submitted partial documentation and missing information has been requested from these students. 7 students have not submitted documentation to Disability Services. Of the 7 who did not submit documentation, 1 took the placement test without accommodations and 1 is scheduled to take it without accommodations.	As of August 22, 17 students submitted all required documentation to Disability Services and their files were reviewed. 2 students did not submit documentation and were not tested by Advising and Testing. 1 student tested without accommodations and has not followed up with Disability Services.

<p>Ammerman Campus</p>	<p>Executive Dean, Associate Dean of Academic Affairs</p>	<p>Automotive Admissions Program: The Ammerman Campus Admissions and Automotive Technology Departments will work to create a new admissions model for the Automotive Technology Program. This initiative will seek to address the "application gap" that exists between overall applications to central admissions compared to automotive applications received by the automotive department. This effort will seek to raise the number of automotive program applicants by streamlining the application process and removing roadblocks in the existing admissions process.</p>	<p>Associate Dean of Academic Affairs, Chair of the Automotive Technician program</p>	<p>An increase of 15% of received applications to the Automotive Technician program.</p>	<p>The new application process, which includes a mandatory information session and on-site application event, has significantly improved the early application and acceptance of program applicants. Last year, there were 59 total applicants with 0 accepted applicants at this point in the year; this year there are 92 total applicants with 25 accepted to date.</p>	<p>This initiative has revealed a means for resolving a past problem and the new admissions model has been adopted for future automotive program admissions.</p>	<p>Completed.</p>
<p>Ammerman Campus</p>	<p>Executive Dean, Head Librarian</p>	<p>Spring semester: Create a program with external visitors participating in demonstrating the history of radio and TV on Long Island. Assignment tied to curriculum in Prof.</p>	<p>Head Librarian, Chair of RTV Program</p>	<p>Implementation of the planned program will serve as measurement of the success of establishing this program.</p>	<p>Fall Program: The program was held November 9, 2016. The club "Suffolk Broadcasters" were present as was Bill Terry's History of Radio Class and the LI Radio and TV Historical Society. Introductions were made and</p>	<p>Spring 2017 program: The program was held April 26, 2017 at the reception of the Society, Suffolk Broadcasters, and included students of Advanced Radio. Special presentation by Prof. Al Bernstein: "Nathan</p>	<p>Continue to have one reception each semester, modify handout for students with Bill Whitnum (Terry). Increase number of Radio/TV students beyond Prof Whitnum's class and</p>

		<p>Whitnum’s class and reception honoring radio pioneers on LI.</p>			<p>there were speakers. Students completed their assignment which was based on the artifacts in the display case of the library. Approximately 40 participants were present.</p>	<p>Stubblefield: Did he really invent radio?” 55 attendees at the reception, the highest number in the past three years, reflecting continued success of the initiative.</p> <p><b>Measurable Institutional Outcomes:</b></p> <p><b>Student success</b> – Students all filled out the assignment and gave thoughtful comments on the pros and cons of the display in the display case, accompanying video, value of the reception, content of the reception and community involved and value of having the receptions in the library.</p> <p><b>Student Success</b> – Content: Students filled out the handout learning, through the display case, video and lectures some of the critical history of radio and the critical part that Long Island plays in that history.</p> <p><b>Community Development:</b> Students appreciate the value of the members of the LI Radio and TV Society, their depth of knowledge of the History of Radio on Long</p>	<p>students not in Radio/TV program. Increase number of members of the LI Society. Assessment: 10% student attendees should be from majors other than Radio TV for each of the receptions, Fall 2017 and Spring 2018. Five additional new members of LI Historical Society to attend either Fall 2017 or Spring 2018 receptions combined.</p>
--	--	---	--	--	--	--	---

						<p>Island and the value of sharing information among the two groups, students and Society members as well as faculty. Members of LI Historical society enjoyed being among the students, talking to them and inspiring each other.</p> <p><b>Institutional Effectiveness –</b> Partnerships like these promote Suffolk County Community College as a valuable member of the community and innovative partner in the County.</p>	
Ammerman Campus	Executive Dean, Head Librarian	COL Library Instruction: Group activities for increased student engagement and learning opportunities for COL library instruction. Improved critical thinking and understanding of library resources. Pilot of handout and group activities modality for Fall semester. In Spring 2016 semester all non-career related COL classes will use same handout and modality to assess student engagement and critical thinking. Increase in	Executive Dean, Head Librarian	By the end of the academic year, 80% COL classes will use form.	A new handout has been developed for use in COL courses. All students of COL have a session in the library to learn about library resources, research and ethical use of information. The Ammerman campus librarians have observed that the methodology of lecturing to students before they go to search individually for resources on the computers appears ineffective. A new handout enables faculty librarians to teach using group learning methodologies. All COL instruction by faculty uses either the handout for generic instruction (Attachment I) or	In the Spring semester all full time and adjunct librarians used the new handout using group presentation methodology in the library component of COL information literacy classes. 55 sections came into the library for COL library instruction. All faculty instructors that brought their classes in were polled to rate whether they thought this methodology was an improvement over the previous method of instruction (lecturing with a demonstration). All faculty that completed the survey except for one faculty	<p>Fall 2017 information literacy assessment activities will move over to assessing the SUNY Gen Ed. COL classes with surveys administered by library faculty for the gen ed. assessment team.</p> <p>Spring 2018: Use students' filled out COL handouts to evaluate "hashtags" (keywords provided by individual students) in order to assess whether students read and understood the abstract of the article they have chosen in class (critical thinking).</p>

		<p>qualitative selection of keywords for research. By the end of the academic year, 80% COL classes will use form. Hashtag subject headings reflect critical thinking. Hashtag subject headings to be compared to Search All database subject headings to see which ones retrieved better articles and increased number of relevant articles. Qualitative evaluation.</p>			<p>the handout focusing on careers (Attachment II).</p> <p>The faculty librarians are looking to assess whether the new modality increases students' critical thinking skills and ability to find the best keywords for their search. The assessment for this first semester will be a survey administered to COL faculty to find out whether they find their students to be more engaged than in previous terms. Librarians will assess the effectiveness using a survey.</p> <p>Measurable Institutional Objectives for Library Instruction using Group Activities:</p> <ol style="list-style-type: none"> <li>1. Student Success: Assess the success of different methodology in teaching library skills</li> <li>4. Institutional Effectiveness: Students become better scholars and researchers</li> <li>5. Communication: Increased interactivity among students for increased engagement, with librarians as facilitators</li> </ol>	<p>member, prefer the new methodology and all librarians found it engaging to instruct in this way (Exact percentage of survey participants will be available after July 9 when Prof. Jenny Farquhar returns from her leave). Further analysis of the hashtag subject headings will be the focus of the analysis in Fall 2017.</p> <p><b>Results of Measurable Institutional Objectives for Library Instruction using Group Activities:</b></p> <p><b>Student success</b> – Students participated in, and succeeded in their own <u>formative learning</u>. More interaction and active participation by students and all students completed the handout.</p> <p><b>Institutional effectiveness</b> – Faculty instructing in COL, according to the survey they completed, agree that the new method of instruction is better than the old method i.e. group activities are more engaging than listening to a lecture, and students did more research as a result of the group method.</p>	<p>Outcome should be greater than 70% success rate. Previous COL assessment (2011) showed a 67% success rate for critical thinking.</p>
--	--	---	--	--	---	---	---

					<p>6. Diversity: Addressing the needs of students with different learning styles</p>	<p><b>Communication</b> – Students communicated more with each other, librarians were facilitators rather than lecturers, students felt more empowered, COL faculty communicated their satisfaction with the new teaching modality.</p> <p><b>Diversity</b> – This methodology was used with COL101 as well as COL105 and all students were more engaged. Each group did as much as they could together, the librarians facilitated additional research when each group gave their presentation, and librarians adjusted the level of explanation tailored to each group’s ability and resulting presentation.</p> <p><b>Goal for Fall 2017</b> – To create a methodology to assess degree of summative learning by evaluating the hashtag subject headings students provide on the handout they fill out during class. Need to evaluate if the hashtag subject headings adequately define the content of the article the student has chosen and</p>	
--	--	--	--	--	--	--	--

						evaluated on their handout. This would indicate a success in critical thinking. The formative learning is well developed and improved by students working in groups. The summative learning will need to be assessed.	
Ammerman Campus	Associate Dean for Academic Affairs, Chair of the English Department	Accelerated Learning Program (ALP): Year 2. Students take ENG010 and ENG101 simultaneously in order to learn writing skills in an intense and extended learning environment with the same professor. We will continue to work with the faculty and deans involved in this initiative to track student progress and assess whether or not this program should be adopted on a larger scale. This will be the second year of the program.	Executive Dean, Associate Dean for Academic Affairs	There will be a 25% increase in success rates among the student/participants in the ALP, as opposed to the traditional sequence of courses.	During the spring 2016 semester 4 sections of ALP taught by 3 fulltime and 1 part time instructor were offered on the Ammerman campus. Anecdotally faculty have observed and reported that there has been a significant improvement in students' written and oral communication skills when taking the ALP courses. The English department on the Ammerman campus is currently in the process of creating a course that would act as a permanent ALP course. The course will go through the governance process via the curriculum committee. The course will be designed as a bridge course that will teach the same skills as a traditional ENG 010 course but the final course assessment will be altered so that it is paired better towards the goals that	Throughout the spring 2017 semester the Accelerated Learning Program committee worked to create a new course to be offered for students that would be the equivalent of the ENG 010 course that had been paired with Freshman Composition ENG 101 during our pilot run. ENG 012 Emerging Writers Workshop was proposed on the Ammerman campus and was unanimously approved by the English department and the Ammerman Curriculum Committee. We are working with Dean Jenn Browne to organize course options for the spring 2018 semester in order to figure out more effective ways to have the courses in banner. Additionally, English chairs and faculty are designing handbooks, developing faculty training, and re-creating	The Assoc. Dean for Academic Affairs and English Dept chair met with Dean Browne at the end of the spring semester to discuss effective ways of linking the 012 and 101 classes for registering students. We have a draft of the 012 schedule for the spring, and some faculty from the pilot program have already expressed interest in adding sections to their schedules. We also have drafts of promotional materials and are planning an 012 committee meeting for faculty in the fall, in preparation for next spring.

					national ALPs have moved towards. The goal of the course is to help students develop their writing skills and oral communication which links to college's ILOs.	promotional materials for students and counselors. We have already reviewed course offering schedules and will be discussing those options with faculty who have taught in the pilot program. We are steadfast in our goal to have our spring 2018 ENG 012 classes organized and ready for students and faculty.	
Ammerman Campus	Executive Dean	Proactive Advising: Year 2 The project will continue this academic year. 17 of the original 25 first level developmental students are still enrolled as of October 14, 2016.	Associate Dean of Student Affairs	70% of first-level developmental students will remain enrolled after the academic year.	13 students from the original cohort are enrolled for the Spring 17 semester. 10 FT and 3 PT. All are in good academic standing. Counselors focusing on maintaining momentum for degree completion and reaching out to students throughout the semester.	This initiative has ended its test phase and the approach to advising is being implemented for the campus.	Completed.
Business and Financial Affairs	VP Business and Financial Affairs	Assure that resources in the operating budget are allocated consistent with institutional planning and goals, with an emphasis on data-driven decision-making.	VP Business and Financial Affairs and Associate Dean of Financial Affairs	As assessment rubric is used to determine the % achieved in allocating budgeted resources with planning and assessment efforts. The target is to maintain a 75% compliance rate for each division. Overall, the assessment of College resources allocated in the operating budget is currently at 87.8%	Budget hearings for the 2017-2018 year are being held throughout January. An assessment of a compliance rate for each divisional and campus budget will take place following the conclusion of the budget hearings and the compiling of the full institutional budget.	In the aggregate, the assessment of College resources allocated in the proposed 2017-2018 operating budget is currently at 87% compliant with planning and institutional goals. This is consistent with last year.	The 2017-2018 operating budget has been approved by the Board of Trustees and the Legislature. As required Suffolk's 2017-2018 operating budget was sent to SUNY for approval by the SUNY Board of Trustees.

				compliant with planning and institutional goals.

		time to support SCCC students' ability to transfer to other institutions or provide documentation to prospective employers. The electronic transmission format is secure, and more timely than U.S. mail. In addition, the solution provides tracking of retrieval and production of transcript requests. The electronic solution will result in reduced purchases of official transcript paper, envelopes and postage.		requested electronically during the first year of implementation.			
Student Affairs	Vice President for Student Affairs	Update Student Email Addresses and Phone Numbers. Student addresses are constantly and frequently found to be incorrect, with "undeliverable" mail being returned on a regular basis. This causes hours of research as offices attempt to contact students for updated information. The inability to effectively reach students by mail	College Associate Dean/Registrar Computer Information/ Networking Administrators	Mail, Phone and Text Message outreach will result in an increase in the effective delivery of communications. Surveys will be conducted to determine how students received information related to key events and directives.	The Banner Project Request Form has been submitted and is currently under review. The procedural documents for this function in self-service Banner is being finalized.	The status remains the same. This project is within the list of IT Banner projects for Student Affairs.	The project is complete and is ready to "go live" waiting for IT to determine an opt-out for the text message service.

		<p>causes multiple problems related to their enrollment and obligations to the College. Similarly, we miss out on the opportunity to contact students by phone due to numbers being incorrect. This negatively affects our ability to reach out to students at peak times of the year. Finally, we have invested in text communication software. However, despite several communications to students to update their text phone, the vast majority of our students have not yet done so. Students who do not enter a text phone # cannot receive our text messages. A forced survey will go a long way in rectifying this situation--and will enhance the efforts of enrollment services offices to quickly deliver key information.</p>

Office of Computer and Information Services	VP/Chief Information Officer	Implementation of Office 365 for Business Pilot to be conducted with Computer Information Systems, started in January 2017, it will conclude in March 2017. If pilot is successful, we will develop plan for College roll-out.	IT Evaluation Team	At least 90% of pilot users should be satisfied throughout pilot and would recommend for college-wide implementation	Pilot to begin in January 2017.	The pilot was completed. Feedback received indicates that the need for a full college implementation must begin. We have started taking steps towards developing a project plan.	Completed
Office of Computer and Information Services	VP/Chief Information Officer	Upgrade to Banner 9 and migrate Banner 8 - INB to Banner 9 Administrative Pages by June/July 2017.	Laura Levine	<b>Success metrics:</b> <ul style="list-style-type: none"> <li>• 2Q 2017: Banner 9 prerequisites completed in PROD</li> <li>• 1Q 2018: Migrate to new data center</li> <li>• 2Q 2018: Banner 9 PROD install</li> </ul>	First phase to begin 1Q of 2017.	Project plan modified due to SUNY ITEC hosting services moving to a new data center and Ellucian announcing end-of-life for Banner 8 - INB. Banner 9 prerequisites installed 2Q 2017	GR: Major tasks identified and added to the IT Roadmap. New project plan and charter created and awaiting sign-off by VPs.
Office of Computer and Information Services	VP/Chief Information Officer	Security: Defense-in-Depth approach needs to be implemented at SCCC	Stephen Clark	<b>Timeline:</b> 18-24 months <b>Success metrics</b> Six months to develop a defense in depth model, create evaluation method such as ACDC method and identify needs. Twelve months to Implement a layered	In process.	We have identified three different components that were lacking which could allow for immediate strengthening of our posture. Endpoint security which desktop support has begun an implementation on the admin side. Once we have a full proof of concept this will be mimicked on the educational side as well. Secondly, there is	End point security is fully deployed on the admin side for all machines that have Internet access. The non-Internet devices are in progress. Firewalls have been received and deployment will begin early September. Write for process of evaluation in progress and

				approach if budgets are approved. Six months to complete configurations and identify re-evaluation process.		no sound method of identified internal traffic and its impact on the network. This will be addressed in our EOY purchase of Next Gen Firewalls as far as building the infrastructure.	will be delivered end of September
Office of Computer and Information Services	VP/Chief Information Officer	Creation of an Information Security unit	VP/Chief Information Officer, Director of Information Technology	<b>Timeline:</b> Summer 2017 <b>Success metrics</b> 80% completed by Summer 2017, Information Security program in place by December 2017	Summer 2017 deployment.	We are in the process of posting an Information Security Officer position. Upon completion, the incumbent will work on developing an Information Security Program. In the interim, we have taken the necessary steps to develop a draft of an Information Security Program.	In progress --  The Information Security Officer position posted on August 9, 2017.  As soon as the vacancy fills, we will start the creation of an Information Security program.
Office of Computer and Information Services	VP/Chief Information Officer	Deployment of Windows 10	Associate Director Computer Support Services	<b>Timeline:</b> 18-24 months <b>Success metrics</b> (60% complete by 9/30/17)	In process.	We are in the process of working with the third release of Windows 10 Enterprise 1703 code named Creator. We have upgraded many ancillary software products three times to remain compatible with the latest releases of Windows 10 Enterprise. This has caused delays in the development of Windows 10 at the desktop. Example: Most recently (5/26/2017) McAfee has pulled their latest agent from distribution due to a bug with the latest release of Windows 10, which we reported and McAfee has confirmed. The	Still in progress, Desktop deployment is going to be delayed at minimum of 3 to 6 months. Tablets abilities are completed enough to move forward as needed, but work will continue until fully configured and completed.  With the last release of the McAfee EPO Agent, the last error known to us has been resolved on Windows 10 1703, also known as the Creator update.

						continued upgrades and changes within the releases of Windows 10 have caused delays and have put us a few months behind with a configuration we can use at the desktop. Currently we are working on a configuration for the new Microsoft Surface Pro 4 and have taken knowledge from that configuration to utilize on the desktop configuration.	We continue to make progress, but simply not as fast as we would like.
Eastern Campus	Executive Dean	Expand professional development opportunities to all members of the campus community. Programming will be directed at (1) creating a safe, secure campus that (2) reflects an appreciation for the individual experience, (3) values diversity, inclusion, success through good work and engagement, and (4) recognizes the importance of sustainability and environmental awareness and protection.	Campus Associate Dean for Student Services, Campus Assistant Dean for Educational Programming & Resources	Initially, success will be measured by number or events, attendance and post-program survey results. Our ongoing success will be determined by observing campus improvement directly related to achieving the learning outcomes of the professional development programs (reduced energy costs, more recycling, improved service to all constituents), expanded diversity awareness and services, etc.)	Professional development activities continued in the area of emergency preparedness; Another program with the local police dept. is planned for the Spring term. In the areas of Student Success and Student Services workshops for employees were held on AED training; Orientation on Generation Millennial; Protecting sensitive student information; Security protocols; gender inclusivity; and computer training in business practices (ARGO and Shark Mart). A new area of professional development for our Culinary and Diet Tech faculty and staff is planned for the Spring term. The subject is Blood Born Pathogens.	Campus safety training continued and included:  Active shooter training 2/15/17  AED training 2/27/17  Rape Aggression Training – 6 week training throughout semester  Blood borne pathogen training 3/8/17	New Southampton Police Department Chief opened conversation around issues of safety on campus and programming included:  Southampton PD Table top exercise-31 people attended 6/28/17  Opiates in the Community training with the SC Sheriff’s Department-29 people attended 8/8/17 and 8/9/17

<p>Eastern Campus</p>	<p>Executive Dean</p>	<p>Improve retention and enrollment in English as a Second Language, non-credit programming while improving the student's campus and college participation and engagement.</p>	<p>Executive Dean College Director of English as a Second Language Programs Campus Coordinator for ESL</p>	<p>2016-17 Academic Year - First time enrollment will increase by 15% from previous academic year (by term). Overall completion rate will increase by 10% from previous academic year. Student survey will support increased satisfaction with campus facilities, services, faculty and staff support, and general impression. Program will be given more publicity in community using a variety of media. Use number of articles, announcements, etc. to measure progress. At least four public communications will be developed and shared during the academic year.</p>	<p>Our enrollment in non-credit ESL continues to grow over last year's Spring numbers. We implemented a partnership with Easthampton H.S. and delivered two evening classes in the fall and will continue to participate with this secondary school's evening programming for the Spring term. To increase hospitality and student satisfaction we initiated Friday night food service in our cafeteria to support the ESL students enrolled in on-campus classes. We are in the process of creating emergency information materials in both English and Spanish, the primary second language used by our ESL students. Publicity regarding the ESL graduation (Jan. 20) will be circulated to area news outlets.</p> <p>NOTE: Our enrollment numbers are up from last Spring, however, the final number of paid students is not available at this time.</p>	<p>As reported by the non-credit ESL program, enrollment grew 11% from fall 2015 to fall 2016 and 10% from spring 2016 to spring 2017.</p> <p>Efforts to improve retention and enrollment included:</p> <ul style="list-style-type: none"> <li>• College Aide hours have been increased to 17 hours each per week and this offers our potential students more opportunities to talk to someone (in both Spanish and English) when they inquire about classes on the Eastern Campus</li> <li>• This office added a week day orientation where students were able to immediately register and pay for classes. This was especially helpful for students who live in the east end of LI</li> <li>• Classes on the East Hampton Satellite continued in the spring and are on the schedule for the fall</li> </ul>	<p>No new report for summer months. Will continue endeavor in fall 2017.</p>

						<p>MSCHE steering committee meetings were held in line with the calendar schedule.</p> <p>Faculty, staff and students were updated on MSCHE and AtD as part of the semester Town Hall meetings.</p>	<p>ensuring student success and completion.</p> <p>The Middle States writing committee met all summer, taking the draft copy developed by each of the seven Standard committees and placing the content into a unified document that delivers unduplicated information into a single voice. The finished draft document reflected our success in utilizing data to perform, sustain and bring about profound changes across the College, thereby strengthening our institution. At the start of the fall semester, the Self-Study draft document was made available for online review by the college community. Feedback has been incorporated into the draft document.</p>
Institutional Advancement	Vice Presidents for Institutional Advancement and Academic Affairs	Support implementation of the U.S. Department of Labor TechHire RESTORE grant through the development of post-award infrastructure.	VP of Institutional Advancement, VP Academic Affairs, College Dean of Sponsored Programs	During the forthcoming measurement period, the effort will include development of budget, purchasing, hiring, and oversight processes, as well as completion of a	The TechHire budget reconciliation and planning spreadsheet was completed in the new MS Office 365 environment with access through SharePoint in collaboration with the CIS department. This system	Work continued on developing the TechHire project narrative reporting framework as the agency continued to modify the reporting template and the third quarterly narrative progress report was delivered	Work was completed on developing the TechHire project narrative reporting framework as the agency's modifications were sent to OMB for final approval. The reporting template

				<p>spreadsheet system for tracking compliance and reconciling grant reporting with Banner.</p>	<p>tracks every transaction recorded on the grant budget, allows for compliance review of all purchases and hires with links to the proposal and budget narratives and the Funding Opportunity Announcement, and is designed for reconciliation with the Banner finance system to ensure all charges are recorded correctly. The MS Office 365 environment is collaborative, which will ultimately allow access to multiple project staff. The system allows for planning purchases and encumbers payroll, two grant management capabilities not available in Banner. The TechHire project narrative reporting framework was begun and the second quarterly narrative report was delivered on time. Hiring and purchasing was begun and continued according to schedule. The project case management system was outlined in preparation for the development of the project outcomes data reporting system which will be required in August.</p>	<p>on time. The project outcomes data reporting system was developed in MS Access ahead of the finalization of the data definitions by the agency. The system is integral to the case management system and will export the file type required by US DOL for upload. Hiring and purchasing continued, tracked in the project reconciliation and planning spreadsheet, which is maintained in balance with Banner. Planning has begun for the system to track program compliance with time and effort reporting and outcomes progress. The agency has assigned a technical assistance coach from Jobs for the Future to assist the project with the development of technical and project management systems development.</p>	<p>and the fourth quarterly narrative progress report was delivered on time. The outcomes data reporting system developed in MS Access was upgraded and modified to include eight additional data fields as the agency continued to change both the number and the definition of fields and the field total rose to 88. The agency again postponed the first upload from the database from August 2017 to October 2017.</p> <p>The MS Office 365 TechHire budget reconciliation and planning spreadsheet continues to perform the task of tracking hiring and purchasing, with a compliance time and effort reporting module planned for development in the next year.</p> <p>Project staff met with technical assistance coaches from Jobs for the Future in person at a</p>
--	--	--	--	--	---	---	---

							meeting at US DOL headquarters in Washington, DC as well as over the phone and online. Technical assistance tasks for the fall include the development of a paid work experience procedure and protocol, the exploration of costs and benefits of various methods for awarding credit for non-credit workforce training, and an exploration and analysis of models for recruiting veterans to workforce development training.
Institutional Advancement	Vice President for Institutional Advancement	Implement new post-award grants development office activities to include measures for tracking program compliance, deliverables, and progress.	VP for Institutional Advancement and College Associate Dean for Sponsored Programs	The Office of Grants Development and Sponsored Programs will expand its monthly grant awards report to include reporting on all ongoing sponsored program deliverables and progress. As a new responsibility within this office, the reporting goal is to grow the information capture rate from 0% to 90%.	The grant submission form was updated to streamline data collection and prepare for outcomes reporting.	The grants database upgrade is underway.  90% of pending, received, declined, and ongoing grants are listed in the database reporting system with monthly updates.  We are exploring electronic grants management systems including Banner pre- and post-award modules in collaboration with CIS.  Also in collaboration with CIS, we completed planning for a	Grants database upgrade continues with lessons learned from the development of the TechHire RESTORE project outcomes data reporting system, including the tabbed entry fields, drop down boxes, and online field-specific definitions and help.  We are piloting a home-grown system for tracking deliverables, timelines, and responsibilities. The grant office filing system

						system to track grant deliverables, timelines, and responsibilities in coordination with the grant budget reconciliation and planning spreadsheet, captured in the new MS Office 365 environment with access through SharePoint.	has been upgraded to match the upgraded database and streamlined grant submission form. Additional suggestions for streamlining the grant approval process have been received and a next round of streamlining, upgrades to the database, and improvements to the workflow are planned for next year.
SCCC Foundation	Vice President of Institutional Advancement, Executive Director of Foundation	Complete the Foundation's Vision 2020 Major Gifts Campaign by the end of the calendar year 2017.
