The Shortest Distance Between You And Your Dreams...

Is Online.

We understand that a busy life can sometimes get in the way of aspirations. That's why we offer a wide range of online and distance-learning opportunities. Our distance education courses are fully accredited. You can work independently in the environment that best suits your personal needs. Course offerings include those in which all requirements are met completely online (BB) with no visits to a campus, and also blended (BLD) courses which combine online requirements with on-campus class meetings.

We also offer a fully online A.A.S. Degree in Business Administration. This popular program may be completed by taking courses online, with no campus-based classes to attend!

We offer more than 275 distance education courses in both fully online and blended formats. For more information on opportunities in distance learning, visit us online or call 631-451-4111 today.
