Your Success Matters

Educational Opportunity Program (EOP)

The Educational Opportunity Program (EOP) is designed to provide academic support to students enrolled full-time in a curriculum at Suffolk County Community College. Students admitted to the program have the academic potential to attain a college degree, but may need additional academic support and counseling throughout their time at the College.

Eligibility

The program is offered to full-time students who are New York State residents for a minimum of twelve months prior to attending college. EOP accepts students who qualify academically and financially based on the following guidelines:

- The student must be a New York State resident;
- The student must be a recipient of a high school diploma, GED, or its equivalent;
- The student is registered as a full-time student;
- The student must have a 79 average or less in high school major subjects, or placement in one or more developmental courses, or be a non-high school graduate who is admitted to Suffolk through the Ability to Benefit (ATB) program; and
- The student must meet the NYS legislated income guidelines.

Program Highlights

- A 5-week summer program, which begins in July, provides a college orientation and intensive review of reading, writing, computer and mathematic skills;
- Additional tutorial services throughout the semester;
- Intensive counseling services are available;
- Registration priority helps students enroll in required classes;
- Induction into Chi Alpha Epsilon Honor Society (3.0 cumulative GPA or better for two consecutive semesters).

EOP is co-funded by an Educational Opportunity Program grant from the State University of New York and funds provided by Suffolk County Community College.

Student Support Services Program (SSS)

The Student Support Services program provides opportunities for students to successfully complete their postsecondary education. The goal is to increase the retention and graduation rates of Suffolk County Community College students and ease the process of transition from one level of higher education to the next.

Eligibility

Students must be enrolled full-time and in their first semester at Suffolk County Community College in order to be considered for the program. In addition, eligible students must have an academic need and meet at least one of the following criteria:

- A federal low-income eligibility;
- Be a first-generation college student (your parents must not have received a bachelor's degree);
- Have a documented physical or mental disability.

Program Highlights

- One-to-one assistance for academic and educational needs;
- Instruction in basic study skills;
- Tutorial services;
- Assistance in applying for financial aid;
- Information about career and transfer opportunities;
- Registration priority helps students be sure to get the classes they need;
- Peer mentoring.

Support for the SSS Program is provided by a TRIO-Student Support Services Program grant from the U.S. Department of Education.
