

Suffolk County Community College

College Brief

NO. 125 April 15, 2021

TO: The College Community

FROM: Louis J. Petrizzo
 Interim President

SUBJECT: Updated Daily Health Screening Questionnaire

As previously shared with the community, all of our communications during the pandemic are subject to change as new information, guidance and/or direction from the State of New York or the Governor's Office is shared. At this time, a number of changes are being implemented to the daily health screening questionnaire used by both employees and students. Daily submission of this questionnaire will continue to be required in order to gain access to any College campus.

Specific changes to the screening questionnaire are as follows:

1. A new phone number and email address are being introduced that will enable employees to immediately reach the Office of Human Resources' COVID Response Team. The new contact information is: 631-548-2600 or covid@sunysuffolk.edu
2. The new version of the daily health screening questionnaire will eliminate the question that addressed national and international travel restrictions, as well as the requirement for online submission of a required traveler health form. This is being done as New York State has eliminated the mandatory quarantine period for asymptomatic international and domestic travelers.
3. The daily health screening questionnaire will continue to ask a series of questions that require individuals to self-report whether they are experiencing any known symptoms of COVID-19, whether they have had close contact with any suspected or confirmed cases of COVID-19 in the 10 preceding days, and whether they have tested positive for COVID-19 within the 10 preceding days.

In consideration of these changes, the revised questionnaire will now be presented for your response **effective Friday, April 16, 2021**.
