CRN's and SECTION NUMBERS
BANNER

CRN's

A **CRN** is a course reference number and is assigned by Banner when a course section is created. It is a one up number. The five digit CRN begins with a number that is associated with a particular semester.

If the CRN begins with:

- A number "9", it is a fall semester course section
- A number "1", it is a winter-session course section
- A number "2", it is a spring semester course section
- A number "6", it is a summer session course section

Tied into a CRN are individual Parts of Term. Parts of Term dictate the onset and close of a semester. It is Part of Term that pulls the start and end date of a semester or part of a semester into an individual course section.

Following is a list of Part of Term codes:
