

Suffolk Federal Credit Union Named Official Partner of Suffolk County Community College

Suffolk Federal Credit Union is now an official naming partner of Suffolk County Community College, a move that cements the two brands as hometown leaders, in a time of continued growth and success. “We could not be more thrilled to enter into this partnership with such an esteemed institution where we can benefit the leaders of tomorrow,” said Ralph D. Spencer, Jr., President & CEO of Suffolk Federal.

With this new partnership, the College’s former Health, Sports and Education Center and Field House on its Michael J. Grant Campus in Brentwood will now become known as the Suffolk Federal Credit Union Arena. The 60,000 square foot, state-of-the-art facility hosts thousands of visitors each year through events including athletic games and expos. Home to three multi-purpose courts, an indoor running track, an eight-lane swimming pool, fully equipped fitness center and more, the facility is situated in close proximity to the Long Island Expressway.

“This multi-year agreement provides the Credit Union with a college-wide naming presence for a minimum of seven years and stands as a historic moment for the College, Foundation and the Credit Union,” said Suffolk County Community College Executive Vice President Louis Petrizzo.

Recently, Suffolk Federal also presented six local graduating high school seniors who will be attending Suffolk County Community College this fall with \$35,000 in scholarships.

“Suffolk Federal’s funding of these scholarships demonstrates in a powerful way their commitment to the young men and woman of Suffolk County and to the societal benefits that flow from an educated and trained workforce. So, thank you Suffolk Federal,” said Belinda Alvarez Groneman, Chairperson of the Suffolk Community College Foundation Board of Directors.
