

Course Assignment Application

Before you proceed, make sure that you have already completed **Step 1:** <https://forms.office.com/r/7gL3y2UEb5>

STEP 2

Who should fill out this Course Assignment Application?

- Faculty who are not certified to teach online and who want to teach an **existing** course that has **already been approved** to be taught in an online asynchronous or blended modality. To read more about the modalities, see [Looking for an Online Class?](#)
- Full-time faculty who were hired after August 30, 2023.

The eLearning Academy (eLA) is required for both.

eLA

The eLA is a fully asynchronous program with content in Brightspace. The purpose of the eLA training is to equip faculty with the pedagogical and technological knowledge to develop and successfully deliver online courses. The eLA is offered once in the fall and once in the spring. The application to take this training is due about **one year** prior to the semester in which you plan to teach. Online courses can be taught for the first time only during 15-week Fall/Spring semesters. Please see the complete list of [eLearning Academy learning outcomes](#).

Approval Process for Course Assignment

Each department determines which courses are to be offered in an online asynchronous or blended modality, initiates the approval process for new courses, and determines how many can be offered each semester. Currently, course assignment proposals must receive the chair's approval. If a chair does not support the proposal, he or she will provide the instructor with a reason in writing. The Distance Education Committee (DEC) provides a vote on the course assignment proposal. To see which courses have already been approved for online asynchronous or blended instruction, see [DE Course List 2024](#).
