

Searching for Closed Captioned Videos on YouTube

YouTube contains a wealth of educational content, however, the auto-captioning built into each video may not be accurate. To find videos on YouTube that were captioned manually by the content creator, use the directions below. *Please note: Currently, YouTube does not have audio description (see page 17) capability. Keep this in mind when choosing videos to use for your courses.*

1. Enter your keywords in the YouTube search text box and click on the **Search** button.

Veterinary cardiology

2. On the results page, click on the **Filters** button and then click on **Subtitles/CC**.

FILTER

UPLOAD DATE	TYPE	DURATION	FEATURES	SORT BY
Last hour	Video	Short (< 4 minutes)	Live	Relevance
Today	Channel	Long (> 20 minutes)	4K	Upload date
This week	Playlist		HD	View count
This month	Movie		Subtitles/CC ×	Rating
This year	Show		Creative Commons	

3. A list of ADA compliant videos will be displayed. You can tell if a YouTube video is compliant if the video has "CC" under the video description. Outside of the search listing, videos with CC (with an underline under it) in the video player indicate videos with manually inputted captions.

Auburn University Cardiology Residency Program

AuburnVetMed • 1K views • 3 years ago

Auburn University College of Veterinary Medicine now has it's own Cardiology Residency Program. Dr. Daniel Newhard, DVM, ...
