

Using YouTube to Create Captions

YouTube can be used to create captions for existing videos. Even if you don't want to host the videos on YouTube, you can download the caption files for use in other applications, such as Camtasia. You will need to create a YouTube account, or, if you have a Gmail account, you can use the YouTube account associated with it.

1. Log into your YouTube channel. Click on the round profile avatar at the top right of the page and then click on **YouTube Studio**.

2. Next, in the menu on the left, click on **Subtitles**.
